

Guidelines for Parents to Support Learning from Home

The online learning platform we use at Westlake Girls High School is Google Classroom. Teachers will post work on individual subject google classrooms and can provide feedback on student work remotely.

How you can support your child's learning at home:

- Make sure they have access to the google classrooms for each subject and their form class (if they do not, please ask them to email their teacher directly so they can be added)
- Encourage them to create a schedule that will work for them and your family when learning from home
- Be aware that learning will look different for a while and encourage students to look at this as an opportunity for self-management
- If internet usage is an issue, please see the link to how you can access google classroom offline <https://www.westlakegirls.school.nz/2020/03/20/how-to-work-offline/>
